General Flow:

```
<html>
<body>

</body>
<script>
  include script url

</script>
</html>
```

index.html

```
code to insert data in
google sheet

code.js
```

Google app script

Google sheet

1. **Create Google Sheet** https://docs.google.com/spreadsheets/u/0/
   i) Add Blank sheet

   ii) Copy your sheet URL , We need that in next steps .

   Eg. https://docs.google.com/spreadsheets/d/fkslkdfjksjdlkfjlskdjskdflk/edit#gid=0

   iii) Enter column name.
   iv) Share your sheet
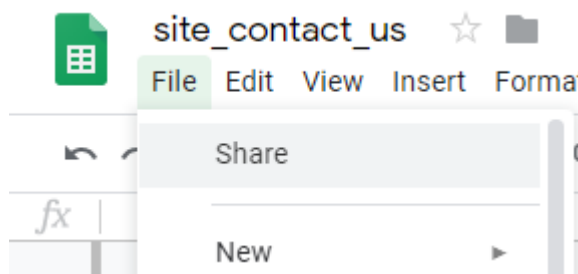

v) Click on Advanced

People

Enter names or email addresses...

Done   Advanced

vi) Select 2ⁿᵈ option and save.

Link sharing

○ 🌐 **On - Public on the web**
         Anyone on the Internet can find and access. No sign-in required.

◉ 👤 **On - Anyone with the link**
         Anyone who has the link can access. No sign-in required.

○ 👥 **Off - Specific people**
         Shared with specific people.

Access: Anyone (no sign-in required)   Can view ▾

Note: Items with any link sharing option can still be published to the web. Learn more

Save   Cancel   Learn more about link sharing

2. Go to tools->Script editor

ata **Tools** Add-ons Help   All cha

▤ Create a form

<> Script editor

Email ⊙ Macros   ► sag
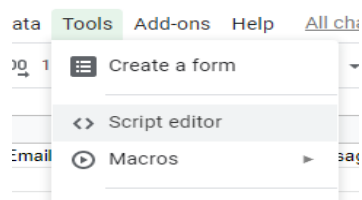

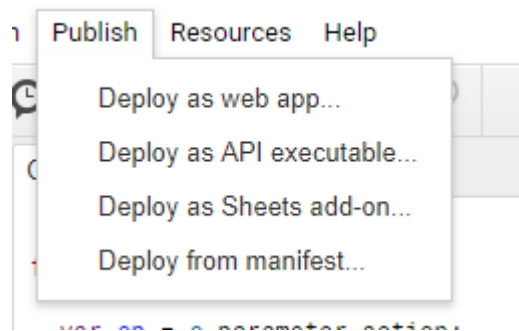

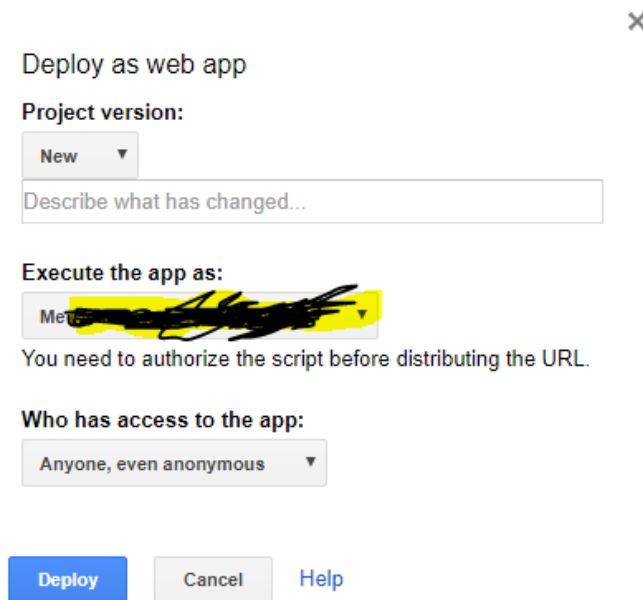

i) You will redirect to Google app script dashboard

- Paste Code.js file code in editor and save it.
- Save untitled project to any name.

3. Click on Publish-Deploy as web app.

Publish   Resources   Help

Deploy as web app...

Deploy as API executable...

Deploy as Sheets add-on...

Deploy from manifest...

i)   Click on Deploy by selecting following option.

Deploy as web app

Project version:

New

Describe what has changed...

Execute the app as:

Me

You need to authorize the script before distributing the URL.

Who has access to the app:

Anyone, even anonymous

Deploy   Cancel   Help

ii) Click on Review Permissions .

Authorization required

Untitled project needs your permission to access your data on Google.

Review Permissions   Cancel

iii) Choose your account

Choose an account

to continue to **Untitled project**
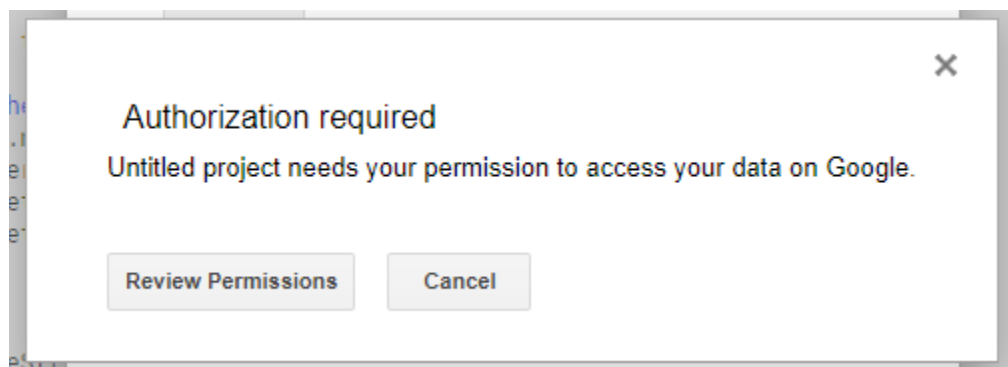

(Q) Use another account
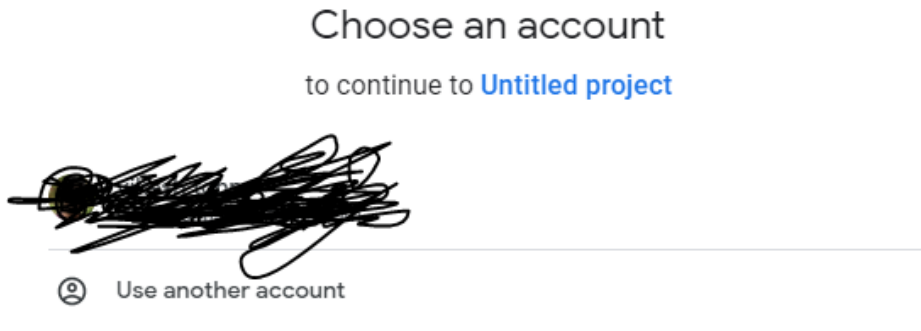

iv) Click on Advanced

This app isn't verified

This app hasn't been verified by Google yet. Only proceed if you know and trust the developer.

Hide Advanced   BACK TO SAFETY

Google hasn't reviewed this app yet and can't confirm it's authentic. Unverified apps may pose a threat to your personal data. Learn more

Go to Untitled project (unsafe)

vii) Click on Go to untitled project (unsafe) and click on Allow

Untitled project wants to access your Google Account

This will allow **Untitled project** to:

● See, edit, create, and delete your spreadsheets in Google Drive   (i)

Make sure you trust Untitled project

You may be sharing sensitive info with this site or app. Learn about how Untitled project will handle your data by reviewing its terms of service and privacy policies. You can always see or remove access in your **Google Account**.

Learn about the risks

Cancel   **Allow**

viii) After successful authentication you will get window like this, Copy that URL

eg. https://script.google.com/macros/s/AKfycbysdjkfjsjl2Juy_XWHHkrKYiMZ1ycuFX334QLOQrdY/exec

- We need to paste that URL in index.html file in JavaScript function.

Deploy as web app   ✕

This project is now deployed as a web app.

Current web app URL:

https://script.google.com/macros/s/AKfycby5GTGDUrEM1H5

Test web app for your latest code.
